

Origami com papel higiênico

Artistas criam dobraduras para decorar banheiros de hotéis e eventos

oficinadoorigami.blogspot.com

Já pensou em entrar no banheiro e deparar-se com papel higiénico dobrado perfeitamente formando um lindo pássaro? Origami, a arte japonesa de dobrar papel, tem uma curiosa variante chamada origami de papel higiénico toilegami ou usar o papel higiênico para as figuras de formas diferentes.

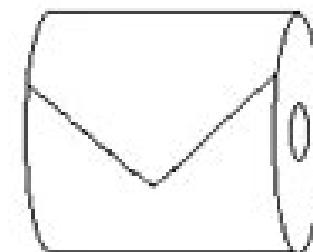

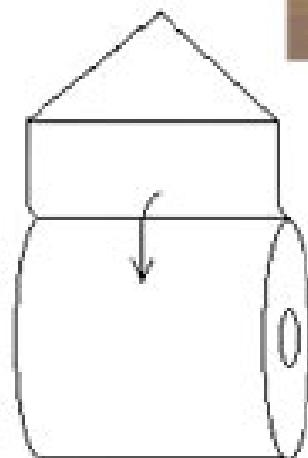

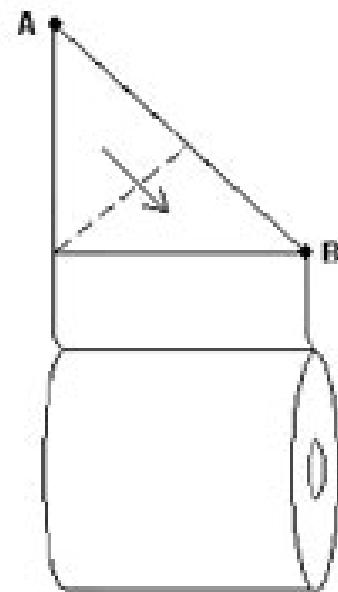

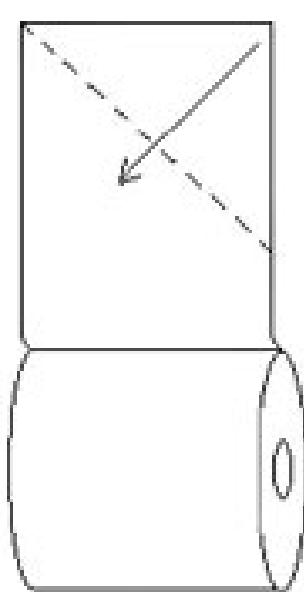

De pássaros a coração, artistas criam técnica de origami em papel higiénico.

As figuras são formadas no final do rolo de papel. O site toilet paper origami (<http://toiletorigami.com>) ensina como transformar um simples rolo de papel higiénico num item de decoração super cobiçado. A ideia vem sendo adaptada para decoração em vários hotéis e eventos.

O resultado final é super divertido.

Abaixo o passo a passo de alguns toilegami

Diamante com leque

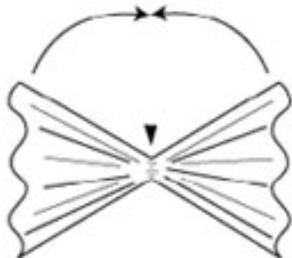

Parte 2 - Leque

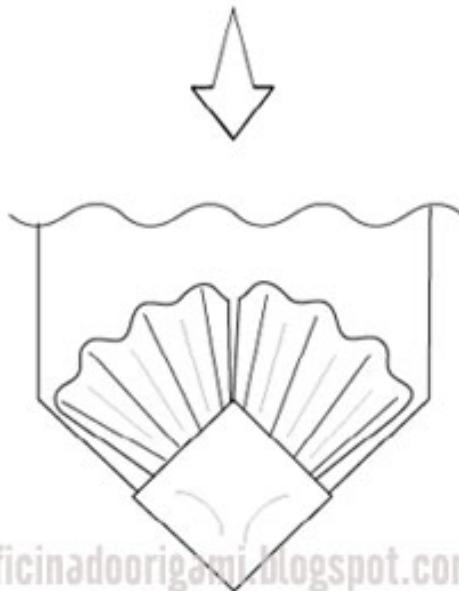

1. Com um pedaço de papel higiênico faça uma espécie de "leque"

2. Segure pelo centro e una os lados esquerdo e direito da borda superior, criando o efeito "leque".

3. Leque pronto.
Agora, dobre o leque e coloque dentro do bolso criado.

Neste vídeo explica como fazer um coração:
